Total packaged disposition, in and out of the marketing area, by regulated handlers.

Plain and flavored.

Plain, fortified, flavored skim and lowfat milk, and buttermilk.

Light, heavy, sour, and cream dips. Includes eggnog and yogurt.

Fercentage changes over previous year are based on the same mumber of comparable markets in both years. Data for February 1972 adjusted to a 28-day basis before computing percentage changes.

// Excludes New York-New Jersey.

// There was a change in the reporting of the sales of cream items. As a result, the percent change over the previous year is somewhat overstated.

// The decreased number of comparable markets reflects the merging of six Texas markets into one. See "Major Order Actions, July 1975" in FMOS - 187, July 1975. The data for the merged market remain comparable.

Includes producer milk and some other source milk used to produce manufactured dairy products in regulated pool plants as well as

milk diverted and shipped to nonpool plants for processing. Some data are partially estimated.

2/ Includes, in addition to listed manufactured products, milk, skim milk, and cream used in other manufactured products, i.e. evaporated milk, condensed milk, whole milk powder, aerated, and frozen and plastic cream; and, milk, skim milk, and cream used in food products as well as used in animal feed, dumped or spilled, plant loss and unidentified.

2/ Percentage changes over previous year are based on pounds of butterfat, except for skim milk powder which are based on pounds of product. Percentage changes are based on the same number of comparable markets.

4/ Data for February 1972 adjusted to a 28-day basis before computing percentage changes.

5/ Excludes New York-New Jersey.

6/ The decreased number of comparable markets reflects the merging of six Texas markets into one. See "Major Order Actions, July 19

1/ In-area sales represent total sales in each of the areas by handlers regulated under the respective orders, by handlers regulated under other orders, by partially regulated handlers, and by producer-handlers. Sales routes of handlers may extend outside defined

marketing areas; therefore, some handler in-area sales are partially estimated.

2/ Plain, and flavored.

3/ Plain, fortified, and flavored skim and lowfat milk, and buttermilk.

4/ Percentages based on the same number of comparable markets in both years. Data for February 1972 adjusted to a 28-day basis before computing percentage changes.

5/ Adjusted to eliminate variations in data due to calendar composition. See special article in FMOS - 184, April 1975.

Excludes the New York-New Jersey, Upstate Michigan, Fort Smith, and Western Colorado markets. Excludes the New York-New Jersey, Fort Smith, Lake Mead, Western Colorado, and Mississippi markets.

<sup>\*</sup> Year to date.

 $<sup>\</sup>underline{1}/$  Excludes Southeastern Florida; Class III only applies to the skim milk portion of all milk disposed of for fertilizer or livestock feed or dumped.

 $<sup>\</sup>frac{2}{}$ / The cumulative 1974 figures are for January through November. For all other markets, the cumulative 1974 figures are for August through November.

<sup>3</sup>/ The amount of producer deliveries used in Class II for the previous year, cumulative, is not comparable to the present year, cumulative, due to the reutilization scheme put into effect in August 1974.

<sup>4</sup>/ The data for the Central Arkansas and Fort Smith markets have been combined in order to mask restricted data.

<sup>1/</sup> In-area sales represent total sales in each of the areas by handlers regulated under the respective orders, by handlers regulated 1/ In-area sales represent total sales in each of the areas by handlers regulated under the respective orders, by handlers regulated under other orders, by partially regulated handlers, and by producer-handlers. Sales routes of handlers may extend outside defined marketing areas; therefore, some handler in-area sales are partially estimated.
2/ Plain and flavored.
3/ Plain, fortified, and flavored skim and lowfat milk, and buttermilk.
4/ Sales represent the marketing area prior to the expansion of June 1, 1975. Data are estimated.
5/ Sales represent the marketing area after the merger and expansion of North Texas, Central West Texas, Austin-Waco, San Antonio, Corpus Christi, and South Texas, July 1, 1975.
6/ Sales represent the marketing area after the expansion of January 1975.
7/ Figures adjusted to eliminate variations due to calendar composition. See special article in FMOS - 184, April 1975.
8/ Small amount of sales estimated.

1/ Data represent whole milk equivalent based on milkfat content. Includes producer milk and some other source milk used to
produce manufactured dairy products in regulated pool plants as well as milk diverted and shipped to nonpool plants for processing.
Some of the data are partially estimated. See page 7 for 55 markets included. Excludes New York-New Jersey.
2/ Milk, skim milk and cream used in other manufactured products, i.e. evaporated milk, condensed milk, whole and skim milk
powder, aerated, frozen and plastic cream, and cream and cheese dips; and milk, skim milk, and cream used in food products as well
as used in animal feed, dumped or spilled, plant loss and unidentified.
\* Sixty markets January through June, 1975. The decrease to 55 markets reflected the merging of six Texas markets into one.

### MAJOR ORDER ACTIONS, NOVEMBER 1975

#### Amendment:

Louisville-Lexington-Evansville - November 1 (40 FR 43716, 9/23/75).

Supply plants that met specified performance requirements during September through February are provided automatic pooling status during March through August.

Milk pooled by a <u>supply plant</u> during the automatic pooling status months of March through August is limited to receipts from dairy farmers who had at least 60 days' production pooled under the order in the preceding September through February.

In order to qualify his milk for <u>diversion</u>, a producer must deliver at least 2 days' production (one delivery for every-other-day pickup) to a pool plant during the months of March through August. During the months of September through February the diversions to a nonpool plant cannot exceed 22 days' production (11 every-other-day pickups).

The rate for partial payments for producer milk is the higher of the Class III price for the preceding month or 90 percent of the weighted average price for the preceding month (for April through July, the Louisville plan takeout rate for the current month would be subtracted from 90 percent of the weighted average price for the preceding month).

Partial payments are required from handlers for milk received during the first 15 days of the month from a cooperative bulk tank handler.
